ENGLISH VERSION

1. Purpose. This Mutual Non-Disclosure Agreement (“Agreement”) governs the disclosure of Confidential Information between PrecisionIndParts (Dongguan Precision IndParts Manufacturing Co., Ltd., “Company”) and the recipient (“Recipient”) in connection with the evaluation of a possible business relationship involving precision machined components.

2. Definition of Confidential Information. Confidential Information means all technical and commercial information disclosed in any form, including but not limited to: engineering drawings, CAD models (STEP/IGES/DXF), material specifications, process data, inspection results, pricing, lead times, tooling designs, and know-how. Information that is publicly available through no fault of the Recipient, or was already known to the Recipient before disclosure, is not Confidential Information.

3. Obligations. The Recipient shall (a) use Confidential Information solely to evaluate the business relationship; (b) not disclose it to any third party without prior written consent; (c) limit access to employees who need it for the evaluation and who are bound by equivalent confidentiality obligations; and (d) protect it with at least the same care used for the Recipient's own confidential information.

4. Engineering Data Handling. CAD files and drawings shall be stored in access-restricted systems, used only for quoting, DFM analysis and manufacturing of the Recipient's parts, and deleted (or returned) within 90 days after the final shipment, unless both parties agree otherwise in writing. The Company shall not use the Recipient's drawings to manufacture parts for any third party.

5. Export Control. For defence-related technical data, the parties shall comply with applicable export control regulations. Controlled data shall be handled under ITAR-compliant procedures, isolated from general systems, and transferred only to personnel with appropriate authorisation.

6. Term. This Agreement is effective from the date of signature and remains in force for three (3) years, or until the underlying business relationship ends, whichever is later. Obligations regarding trade secrets survive termination indefinitely.

7. No License or Warranty. Nothing in this Agreement grants any intellectual property rights. All Confidential Information is provided "AS IS" without warranty of any kind.

8. Governing Law. This Agreement shall be governed by the laws of the People's Republic of China, without regard to conflict-of-law principles. The parties shall first attempt to resolve disputes through good-faith negotiation.
